

GRAPES and GRAIN

SUMMER CELEBRATION

Allagash has six year round beers in its portfolio, seven yearly releases and numerous one-offs and keg only releases. We continue to be successful by pushing the limits of beer and themselves. We have always strived to produce the finest Belgian inspired and experimental ales this side of the Atlantic. Allagash began as New England's original Belgian-Style brewery and have grown into one of the industry's most distinguished and well-respected brands.

Angry Orchard Cider Company's cider makers have been experimenting with apple varieties and unique flavors to develop cider recipes for almost 20 years. Angry Orchard's hard cider line-up first experimented with a blend of Italian culinary apples from the foothills of the Alps and French bittersweet apples from Normandy. Year-round style Green Apple and seasonals are made with apples from the Pacific Northwest.

Our standard ales run the flavor gamut from light and fruity to dark and rich. By varying amounts of the same four ingredients (water, yeast, malted barley and hops), we are able to make beers that are unique and independent, yet part of the cohesive whole that is our product line. Our malts and our hops are imported from England, and our water comes straight from our well in Town Hill, Maine.

Banner Beer Co. targets craft beer drinkers with an active, motivated lifestyle. However, with the craft beer segment on the rise, our beers also appeal to a wider audience. Banner beer is what is known as a "session beer" - all of our products are 5% ABV or lower, filling the void of lower alcohol, full flavored beers in the craft beer market.

Brooklyn Brewery makes beer. Good beer. Not only does it taste good and make your meal better, but we like to think that since its founding in 1988, Brooklyn Brewery has brewed flavorful beers that enrich the life, tradition and culture of the community it serves.

Downeast Cider achieves the fullest flavored hard cider on the market by using unfiltered freshly pressed juice. At Sebago Brewing Company, we pride ourselves in knowing how to have a good time. No, a great time. We set out with a simple goal: brew the beers we wanted to drink. We started small, with a homebrew shop, a love of American hops and plenty of passion. In the process, we changed the beer world forever. Decades later, we're still at it, and the passion burns brighter than ever

Twisted Tea Brewing Company was founded in 2001 on the twisted promise that a hard iced tea should taste like real iced tea. Since 2001, our Tea brewmasters (yes, their job is as cool as it sounds) have been committed to brewing a hard iced tea that not only tastes like real iced tea but also delivers an incredibly smooth and refreshing drinking experience. In 2014, we released Twisted Lemonade, a light and refreshing hard lemonade that tastes like home-made lemonade.

The Founders Family, a group of passionate beer enthusiasts, has grown around this simple philosophy: "We don't brew beer for the masses. Instead, our beers are crafted for a chosen few, a small cadre of renegades and rebels who enjoy a beer that pushes the limits of what is commonly accepted as taste. In short, we make beer for people like us."

Our mission is to craft amazing beers, utilizing the skills of our brewer and his unique background as a chef. We like to use unique background as a chef. We like to use unique strands of wild yeast and utilize as many local ingredients as possible when crafting our beers.
